Abi, I recommend he not meet with them at this time, these are being considered at the State level and may lead to EPA action later. Instead, Karen Schwinn is our point of contact and could meet with them. (all: I also think it important that he not meet with them prior to the 303d list adoption).

Subject: Meeting with Jared Blumenfeld Re Selenium Waiver and Basin Plan Amendment and 305 (b) List Adoption

Dear Abigail,

As I mentioned on the phone the Sierra Club, Friends of the River, California Water Impact Network, California Sportfishing Protection Alliance, Pacific Coast Federation of Fishermen's Associations, Planning and Conservation League would like to meet with Jared Blumenfeld, to introduce themselves and discuss several key pollution issues regarding selenium contamination of the San Joaquin River, Delta and estuaries.

On August 4, 2010, the SWRCB is scheduled to make a final recommendation to EPA regarding the proposed 303d Delisting of San Joaquin River for selenium and shortly the SWRCB will hear testimony regarding a Basin Plan Amendment to Waive Selenium Standards Allowing Discharge to San Joaquin River and Delta. These groups would like to meet to discuss these pending issues. [See the attached letters.]

I understand the Regional Administrator is traveling a great deal in July. Please let us know if a meeting at his office or in Sacramento would be possible.

Regards,
Patricia Schifferle
